BOAT SALES

LAKELAND LEISURE ESTATES

Description

Welcome aboard this truly stunning 2025 widebeam, a vessel that redefines luxury living on the water. Built upon the strength and elegance of a Colecraft Duchy hull and paired with the powerful Beta Marine 90hp engine, this brand-new boat has been fitted out by the renowned, multi-award-winning Kingsground Narrowboats. Created to mark thirty years of their exceptional craftsmanship, it stands as both a celebration of heritage and a showcase of contemporary design.

The exterior is as striking as it is durable, finished in a sophisticated cream and grey livery. Each detail has been hand-painted using the advanced Epiphanes 2 Pack Polyurethane paint system, providing superior UV protection and ensuring a flawless finish that will withstand the demands of the British climate for years to come. The pram-covered square cruiser stern, complete with Tek Dek flooring and a practical stern table, provides a generous space for outdoor entertaining or simply enjoying a glass of wine on a summer's evening.

Step inside and the sense of quality is immediate. The interior has been meticulously crafted with Kingsground's signature attention to detail, blending traditional workmanship with modern elegance. The galley is a chef's dream, featuring a seven-burner range cooker with treble ovens and a separate grill, complemented by a ceramic sink and drainer, Shoreline fridge and freezer, coffee machine, and a wealth of solid wood worktops, cupboards and drawers. It is a space designed to be both practical and beautiful, perfect for everyday living or entertaining on a grand scale.

The saloon offers a warm and inviting atmosphere, with a solid fuel stove taking centre stage. A 50-inch smart television is mounted on an extra-long pivot bracket for optimum viewing, while a three-seater sofa and armchair provide comfort and relaxation. The dining area flows seamlessly from here, with a free-standing table and four chairs creating the perfect spot for family meals or entertaining friends.

Practicality has also been carefully considered with the inclusion of a dedicated boot room. Here, a full-size 9kg washing machine is complemented by a seating bench, boot and coat storage, and an airing cupboard, ensuring that day-to-day living is as effortless as possible.

The master bedroom is nothing short of a sanctuary. A king-size bed with integral storage drawers is accompanied by a full-size wardrobe, extensive cupboards to port and starboard, and a free-standing seat with an integral desk at the foot of the bed. A 32-inch smart television completes this private retreat, blending luxury with functionality. The guest bedroom doubles as a study, featuring a full-size extendable double bed and a work-from-home setup with desk and drawers, making it as versatile as it is comfortable.

The bathroom evokes a spa-like sense of indulgence. An oversized shower with glazed bi-fold doors sits alongside a raised oval ceramic wash basin, a ceramic pump-out toilet, ample storage and an extra-large heated towel rail. Every detail has been chosen to elevate comfort and style.

Technically, the boat is as impressive as its interior. A stainless-steel water tank holds approximately 700 to 900 litres, with a waste capacity of 400 to 500 litres and a fuel capacity of 500 to 600 litres. Driven by the reliable Beta Marine 90hp engine paired with a PRM 150 D2 gearbox, she promises both performance and reliability on every journey.

This brand-new widebeam is more than just a boat; it is a lifestyle statement. Designed for those who demand the very best in comfort, practicality and design, it is the perfect choice for long-term cruising or enjoying the tranquillity of marina life. With its unrivalled craftsmanship, elegant finish and luxurious specification, this 65ft x 12ft widebeam offers an extraordinary opportunity to experience life afloat at its finest.
