BOAT SALES

LAKELAND LEISURE ESTATES

Description

Nathalie La Seconda is a lovely 36-foot Dutch barge, built in 1969 and well-preserved to combine the charm of a classic vessel with modern comfort. This compact yet well-appointed barge is ideal for anyone seeking a unique lifestyle on the water, whether for weekend retreats or full-time living. With its thoughtfully designed interior, comfortable living spaces, and charming outdoor area, Nathalie La Seconda offers a delightful escape into tranquillity and adventure.

As you step aboard the boat from the stern, you'll immediately notice the partially covered rear deck, equipped with a canopy that provides shade and shelter. This space is perfect for enjoying outdoor meals, relaxing with a book, or simply taking in the beauty of your surroundings. The deck's canopy makes it versatile for all-weather use, making this a practical and inviting area to spend time when not navigating the waters.

Upon entering the boat, you step down into the lounge and dining area, designed for both comfort and functionality. The centrepiece is a large, L-shaped fixed sofa that easily converts into a double bed, providing comfortable accommodation for guests. A free-standing leaf table offers flexibility, allowing you to create more space when needed or expand for dining. The room is anchored by a multi-fuel stove, surrounded by classic tiling, creating a cosy and warm ambiance during colder months. The space also includes fitted storage cupboards, providing ample room to keep belongings neatly stored. With five large windows flooding the lounge with natural light, you'll enjoy stunning views of the water from the comfort of your home.

Adjacent to the lounge is a well-equipped galley kitchen that optimises the available space for functionality. With ample storage options, the galley is designed to meet all your cooking needs while on board. Two spacious cupboards are featured within the kitchen area. One cupboard houses a convenient cassette toilet, while the other holds a sea toilet that has been capped off. This flexible setup offers the ability to adapt the space to suit personal preferences, ensuring comfort and convenience on longer journeys.

Moving towards the bow of the boat, you'll find the master bedroom, a peaceful retreat with versatile sleeping arrangements. The bed can be configured as a large king-sized bed for couples or two large single beds for more flexibility. This customisation allows you to tailor the room to your needs, whether hosting guests or enjoying your own space. A removable ladder leads up to the bow doors, adding a sense of adventure and providing access to the front deck area. Overhead shelving and built-in storage maximise the space, offering plenty of room for clothes, personal items, and other essentials, ensuring your living area remains tidy and organized.

The bathroom facilities are cleverly integrated into the galley area, utilising the space efficiently. Two cupboards provide bathroom storage and toilet facilities. One cupboard houses a cassette toilet, a practical and easily accessible option for everyday use. The other cupboard contains a capped-off sea toilet, providing flexibility depending on the location and needs of the boat's occupants. This smart design ensures that even with limited space, the bathroom remains functional and easy to use.

Nathalie La Seconda is not just a boat—it's a floating home that provides all the essentials for comfortable living. Its multi-fuel stove ensures warmth throughout the year, making it suitable for both summer getaways and cosy winter retreats. The large windows throughout the boat allow for plenty of natural light, creating a bright, airy feel while offering picturesque views of the surrounding waterways. The boat's manageable 36-foot length makes it easy to navigate through canals and rivers, while the ample storage and thoughtful design ensure that you can bring everything you need for a relaxing time on board.

Whether you're dreaming of a peaceful lifestyle afloat or a unique vacation retreat, Nathalie La Seconda offers the perfect balance of charm and functionality. Its compact design does not compromise on comfort, with ample room for relaxing, entertaining, and sleeping. The boat's thoughtful layout and charming features ensure that every inch of space is utilised, making it feel much larger than its 36 feet.
